Second International Handbook of Educational Leadership and Administration Kenneth A. Leithwood, P. Hallinger, 2012-12-06

The first International Handbook of Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education. Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980s combined with a widespread belief in leadership as the single most powerful contribution to such improvement. The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well. During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum. The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development.

The Leader's Pyramid Joseph Garcia, 2010. In his book *The Leader's Pyramid* Joseph Garcia provides a leadership tool that is both easy to remember and easy to apply to most management situations. Garcia offers proven leadership success based on a challenging military career and while serving as a CFO for a national nonprofit and most recently as the Katrina CFO for FEMA in New Orleans for three years. Garcia's Leader's Pyramid tool has allowed him to do his part to meet extraordinary mission requirements in extraordinary places. The Leader's Pyramid is built and grounded on proven principles and is valuable to all types of leaders experienced manager or newly promoted supervisor. Joseph blends his walk in a leader's shoes perspective with extensive research and academic principles. He taught a Leadership course at the Air Force Academy and received his Executive Masters in Leadership from Georgetown University. His desired outcome for his readers is a balanced and consistent approach to leadership. Using the Leader's Pyramid construct has allowed Joseph to be consistent in how he reaches decisions especially tough ones involving people concerns because he follows the same decision making process. At the same time he has gained the proper balance in his leadership focus and actions since his Leader's Pyramid allocates a 60/30/10 percentage mix for the Mission, People, and Ego factors respectively. Proof of Garcia's recipe for success includes many organizational and individual awards including the Male Boss of the Year through the Federal Women's Awards Program. Joseph builds the Leader's Pyramid with his readers one block at a time using his wealth of personal experiences along with illustrating scenarios that help explain and reinforce the Mission, People, and Ego components. Garcia even uses the Leader's Pyramid to advocate how to become a better spouse, parent, and well rounded individual. Finally his pyramid maintenance tips promote continuous professional and personal development. In short Garcia takes his readers on an enjoyable learning journey throughout *The Leader's Pyramid*.
